J1020- DRYING-D16

APPLICATION

The drying cartridge J1020-DRYING-D16 is the standard drying cartridge for the entrance optic J1004.

It has a filling of about 2 g drying agent. The drying cartridge has a humidity indicating element in the front window. The cartridge can be activated by changing of the drying agent or by regeneration of the cartridge which contains the drying agent.

Physical data

Weight	0.015 kg
