

J1021-OPTAB

Precision is
our business

APPLICATION

The J1021-OPTAB is a general purpose optical table with passive air isolators. The table minimizes vibrations between position sensitive components on the table and the laboratory floor.

Adjustable levelling feet's allow a quick and easy initial setup. Once pressurized (air supply), regulators allow to level a not centred payload.

Different dimensions are available on request.

SPECIFICATION

| | |
|------------------|--|
| Material | steel |
| Levelling feet's | 4 |
| Levelling valves | 3 |
| Application | Microscopy, electro-optical experiments |
| Service | By hand to align bearings allow servicing of the isolators without dismounting the experiment. |
| Fitting | Faraday cage |

Physical data

| | |
|--------------|--------------------|
| Weight table | ~60 kg |
| Weight plate | 78 kg |
| Size table | 870 x 570 x 835 mm |
| Size plate | 1000 x 660 x 15 mm |
