APPLICATION

The environmental box is available as temperature regulated (J1025-ENVBOX-06-REG) or unregulated (J1025-ENVBOX-06) version. The sealed Aluminium enclosures are insulated with 30 mm plates.

The temperature controller (cooling/heating) has an RS232 interface, this allows controlling and reading out the parameters and settings. The controller can also be used as stand-alone unit.

The regulation is realized with a peltier element.
